

ONETRACTM LX

Single-Use Cordless Retractor with Integrated Multi-LED Light Source

**CORDLESS ILLUMINATION
WITH INTEGRATED SMOKE
EVACUATION**

ONETRAC LX is a single-use, cordless surgical retractor with integrated multi-LED light source and dual smoke evacuation channels.

This ready-to-use device eliminates the time and expense of reprocessing and reduces the risk of cross-contamination in the surgical setting by making reusable devices and fiber-optic light cables obsolete.

Illumination in the depths of a surgical pocket can be met within seconds – no assembly, additional parts/components, or fiber-optic cables required.
