

# ONETRAC<sup>™</sup> LXD

Single-Use Cordless Dual-Blade Retractor with Integrated Multi-LED Light Source

CORDLESS ILLUMINATION  
WITH INTEGRATED SMOKE  
EVACUATION

**ONETRAC LXD is a single-use, cordless dual-blade surgical retractor with integrated multi-LED light source and dual smoke evacuation channels.**

This ready-to-use device eliminates the time and expense of reprocessing and reduces the risk of cross-contamination in the surgical setting by making reusable, handheld surgical retractors and associated fiber-optic light cables obsolete.

Illumination in the depths of a surgical pocket can be met within seconds – no assembly, additional parts/components, or fiber-optic cables required.

- Item # C100270 (Dual-Blade)
  - 50mm x 20mm, 30mm x 15mm
- Sold individually (1 EA/BX)
- Each unit comes packed sterile

## ABOUT US

**obp** is the leading global developer of single-use, self-contained, illuminating surgical devices. We integrate light with device — making them one — creating effective and simplified single-use solutions. Our innovative products are used in surgery centers and hospitals throughout the U.S., as well as healthcare facilities worldwide.

# CUT THE CORD

## PRODUCT FEATURES

- Disposable, single-use device reduces risk of cross-contamination
- Integrated cordless LED lights provide direct illumination for over 3 hours of continuous use
- Patented dual-blade LED circuitry enables instantaneous transition between LEDs on either blade with the press of a button
- On/off button allows user to cycle through multiple lighting configurations, and preserve battery life when not in use
- Patented dual smoke evacuation channels allow for efficient mid-procedure transition from one blade to the other (custom smoke evacuation adaptor included with each unit)
- Color-coded battery activation tab allows user to easily identify and differentiate blade sizes
- Newly designed ergonomic handle
- Atraumatic grip at distal end of blade to maximize tissue adherence
- Patented touch-free battery removal allows for disposal of batteries without battery contact for easy recycling
